

FD-200 SERIES FETAL DOPPLER

Feature:

- Advanced auto-correlation algorithm for high FHR accuracy
- High sensitivity wide beam probe for optimum performance from early gestation right through to delivery
- High resolution TFT provide “BIG” numbers FHR display mode and FHR trace mode
- Digital noise reduction for crystal clear fetal heart sounds
- Low ultrasound output dosage for ultimate safety
- Advanced power management for long battery life
- Integrated MicroUSB port for convenient charging for internal Li-ion battery
